Corporation

This company meets high standards of social and environmental impact.

HELPING YOU DO *more* OF WHAT MATTERS MOST

We use science and ingenuity, safe ingredients, and sustainable practices, to empower you, your pet and your family to engage fully in the activities that matter most to you - without the troublesome distractions like fleas, ticks, dirt, stains, and stress. Our determination to do more to create the most sustainable, efficacious, high-quality products means you can do more adventuring, more cuddling, more exploring, more relaxing...more living. With our effective, eco-friendly formulations, we make it easy to be both a good pet parent and a good citizen of the earth.

SUSTAINABLE DEDICATION

Sustainability is central to all we do. Grounded in the European standards we've adhered to for decades, we work to conserve resources, reduce CO2 emissions and create products with limited impact on the earth. It shows in our diligent recycling efforts, no-waste production cycle, ecological offices and optimized delivery logistics.

EXPANSIVE SUPPORT

We teach, we guide, we assist, we serve. We happily share our wealth of knowledge about pets and pet products. Our R&D team continually builds upon and improves our scientific and technological understanding, and we want to supply any information that's helpful for others to know. We're here to benefit pets, people and the planet any way we can.

UNCOMPROMISING FORMULATIONS

We believe sustainability and efficacy should work together to create true wellness. We harness science and nature to create products that are safe for animals and the environment—and that truly work.

TECHNOLOGICAL INGENUITY

We're innovative by nature. We have the expertise, the equipment, the scientists and the commitment to R&D to ensure we never stop inventing, improving and revolutionizing sustainable pet care. Our vertical integration and nimble approach means we can control our entire manufacturing process to develop new ideas, evolve quickly and, ultimately, do more for pets and the world we share with them.

GROOMING SHAMPOOS & WIPES

ALZOO™ has a wide variety of shampoos & wipes to meet dogs' specific needs. Our product line includes options for both puppies and full grown dogs and address many common canine issues.

BEHAVIOR DETERRENT

Break your dog's bad habits like urine marking and destructive chewing with our powerful training spray. The power of Lemongrass and Cinnamon Essential Oils (Indoor product) and Mustard Essential Oil (Outdoor product) work as plant-based deterrents to help prevent dogs from repeating bad behavior or going back to the same place twice.

- Prevents pets from revisiting the same spot or item twice
- Proven safe and effective when used as directed
- Helps correct destructive behavior like marking and chewing
- Plant-based active ingredients
- For outside situations try ALZOO™ Outdoor Training Spray, stronger outdoor formula!

Do you know the Incredible Story of Alzoo? A Tale of Passion, Innovation, and Endless Possibilities!

« Hello everyone, my name is Alzo, a proud German Shepherd. But more importantly, I am the heart and soul of the Alzoo brand, created by my loving family who gave me my name!

I was born into a family that loves animals. We had dogs, of course, but also chickens, ducks, guinea fowls, sheep, fish, and even a pony! We were like a big family, always together, eating, playing, and enjoying every moment.

And me, Alzo, I loved playing football, tracking squirrels and rabbits, and I couldn't help but sneak around the table during meals. I am a dog after all, I have my instincts! But I am also very affectionate and I love spending time with members of my family, especially when we share delicious treats.

That's why when my family started creating a brand of animal care products, they decided to name it Alzoo, in my honor. They wanted to share their love for all animals ("All Zoo") and their desire to give them high-quality products for their health and well-being.

Alzoo's mission was to create a better life for all animals everywhere, just like I brought joy and happiness to my family. They believed that every animal deserved love, care, and attention, just as I had received from my loving family.

From up above, I am happy to know that my family has created a company that helps animals live a healthier and happier life. »

Alzoo is more than just a brand - it reflects the love a family can give to their furry and feathered friends. Their dedication to providing natural and quality products is a testament to their deep passion for the health and well-being of their animals. And with every product, they honor the memory of our dear Alzo!
