Calming Wipes with Pheromones for Cats and Dogs

Lifesaver for my anxious cat!

My cat Luna has always been anxious during thunderstorms and car rides to the vet. These wipes have been miraculous! I gently wipe her face and paws about 15 minutes before stressful situations, and she becomes noticeably calmer. The pheromones really work, and I love that they're gentle enough to use regularly. The wipes are also well-moistened and don't dry out quickly. Absolutely worth it for any pet owner with an anxious furry friend.

Plant-Based Fly & Tick Horse Spray

Best spray I've ever used!

As a competitive rider, I need my horse to be comfortable and focused. This spray has been incredible during our summer competitions. It keeps the flies away for hours, even during intense training sessions. The plant-based formula doesn't leave a greasy residue and has a pleasant, subtle scent. My horse Shadow doesn't mind the application at all, which is a first!

I've tried so many products for my horse Bella, but nothing worked as well as this collar. The plant-based formula is gentle yet effective. No more constant swatting at flies during our rides! Flea & Tick Collar for Cats

Perfect for my picky indoor/outdoor cat

My cat Luna is extremely fussy about anything around her neck, and she's an escape artist who loves to explore outside. After trying multiple collars that she either removed or had bad reactions to, the ALZOO cat collar has been perfect! It's lightweight, adjusts easily, and she doesn't try to take it off. Most importantly, she hasn't had a single flea since wearing it, even after her outdoor adventures.

Flea & Tick Collar for Dogs

Best collar I've ever used!

As a dog dad who loves hiking with my pup Max, I've tried everything to keep ticks away. The ALZOO collar has been a total game changer. We've been outdoors all spring, and not a single tick or flea! It smells pleasant, not overpowering, and Max didn't try to take it off — that's a win. Plus, I love that it's plant-based.

Calming Chewy Bites for Dogs

Anxiety relief that actually works

My rescue pup Baxter has severe anxiety during thunderstorms and fireworks. I've tried everything from thunder shirts to prescription meds. ALZOO's Calming Chewy Bites have been a game-changer! They take effect within about 30 minutes and help him relax without making him drowsy or "out of it." He actually enjoys the taste too, which makes giving them so much easier. Will be stocking up for July 4th!

Joint Health Supplements for Dogs

My senior dog is acting like a puppy again!

My 12-year-old German Shepherd Bruno was really slowing down with stiff joints and difficulty getting up after naps. After just 3 weeks on ALZOO's joint supplements, I'm seeing incredible improvement! He's back to wanting longer walks and even playing fetch again. The chews are soft enough for his older teeth, and he thinks they're treats. I appreciate that they're made with natural ingredients and no fillers.

GREAT PRODUCT !!

Used it when potty training a puppy years ago when it was just called Pee B Gone on the label. New label now says ALZOO, same great product, same great scent, obviously same great company.
