OUR STORY

ALZOO™ began in the French countryside, in a home where animals were part of everyday life. Dogs, farm animals, and wildlife shared the same space, shaping a deep respect for nature and animal well-being from an early age.

Among them was a dog named Alzo. His presence, loyalty, and intelligence quietly changed the way a young child understood animals. Through him, care became more intentional, and the bond between humans and animals became something to protect and honor.

Life moved at a slower pace. Days were spent outdoors, observing animals, learning their needs, and caring for them with patience rather than excess. This environment shaped a belief that animal care should be thoughtful, natural, and rooted in quality.

The name ALZOO™ reflects this philosophy. It represents a love for all animals and a commitment to creating products that support their health and comfort using carefully selected ingredients.

Every ALZOO™ product is developed with respect for animals, nature, and the people who care for them. The goal is to create reliable, wellcrafted solutions that fit naturally into daily life.

Just as animals give us their loyalty, joy, and unwavering love, ALZOO™ gives back to the world: through products crafted with care, compassion, and a commitment to making life better for pets, people, and the planet.
